

Does your organisation live hand to mouth?

**Are you constantly scrambling from
one funding round to the next?**

**Would you like your organisation to have a
reliable income, but are not sure where to start?**

You need to be at the

Sustainable Funding Workshop

In this workshop you will discover:

- The 7 key income streams available to Community Organisations
Are you using them all, and if so, how can you make them stronger?
- The difference between donations, sponsorship and grants. What does it take to secure them all and create an ongoing stream of funding?
- How to increase your fundraising revenue by doing what you already do, but by doing it better. What are the little things that make all the difference?
- Why there are only a few people helping out and how you can get more people involved with your fundraising activities.
- How to develop a sustainable funding plan so you are not always scrambling for cash.

This workshop is full of practical ideas and information that you can easily use in *your* organisation. It's often referred to as 'the best funding workshop I've ever attended'.
